

Infinite Spirit, Which is Everywhere.

Infinite Spirit, which is everywhere; is all things in all states of being. We are part of you; and in being a part of you we are part of each other.

In loving one another we are loving all things as we are all one.

Help us to remember who we truly are; where we came from and where we are going to.

Guide us in realising that what we do for another we do for ourselves. In serving each other we are serving God.

We chose to come into this physical life in order that we might grow in Spirit.

We respect the teachings of past Masters who came to tell us this knowledge and we seek to understand more of our purpose here and how we can best accomplish that which we came to do.

We send out thoughts of love and sympathy to all the peoples of this world, all the animals, birds and insects, with the desire that there will be peace and harmony everywhere.

We ask that the human race will abandon the grievances of old and look forward to a renewal of peace and brotherly love.

We desire that all the Religions of this world will move forward teaching peace and the knowledge that we are all one with You and that all barriers preventing unity are man made through ignorance and hostility.

May this thought of Peace and Harmony be spread throughout the world and may we contribute to it by the way we live our individual lives while we are here in a body on this earth.

We send out these thoughts in the name of Love through the infinite power of God: the Infinite Spirit, the All That Is.

Amen.
